

# Studio Visitor web app

Jessica Kincaid

@j-kincaid

# Description

- A virtual tour guide to complement the experience of attending an art event. Specifically, to assist attendees of an Open Studios event where the public is invited to tour a shared artists' work space.

# Features

Interactive studio map

Directory for artists  
by name,  
corresponding to  
highlighted  
locations on map

Menu locating  
Refreshments,  
Restrooms and  
Children's area

Link to  
Performance  
schedule page

# Features

Schedule of  
performances,  
updating in real  
time

## MAP

# Features

Profile page for each artist by name, with 120-word bio and profile image. Small icons indicate snacks, items for sale, and presence in video compilation.

**MADISON MAE PARKER**    
Performer, Writer

8:30 sub- 2  
SPOKEN PUBLICATION STUDIO

WORD

Our westernized culture exists inside a dichotomy: If it is not x, it must be y; if it is not good, it must be bad; if it is not happy, it must be sad. This duality forces people into isolated boxes, both physically and emotionally, separating us from the world around us, and ultimately ourselves. Through my art practice of poetry and performance, I remind people that you are not alone. In fact, existing in the tension

 I'M A FAN!

**MAP**

# Planning- User Stories

The User can select an artist by name and find their space on the map

The user can locate Refreshments, Restrooms and Children's area on map

The user can link to the performance schedule

**MAP**

The User can track if they have visited each artist by checking “I’m a fan!”

The User can create an account to sign up for newsletter/raffle

# Technology Stack

- JavaScript/jQuery
- React JS
- Firebase for visitors to track which studios they have visited
  - Visit tracking uses cookies only while visitors are at event
  - Optional signup for raffle and newsletter (connects with “I’m a fan!” checkbox)

# What I am learning

- Interviewing a client
- React
- Creating user stories
- Firebase

# What's Next

- Collect artist profile content from client
- Map interactivity
- User Account Creation
- Cookies
